## WINE LIST

### 'Sea Change'

In response to huge environmental challenges faced by the world's oceans, we present to you a range of eco-friendly wines 'Sea Change', a new wine concept designed to help global plastic waste. This is an eco-conscious range of wines with minimal packaging, light weight bottles and plastic-free. 15% of the grape waste produced by 'Sea Change' is also recycled and put to alternative uses. The wines utilize a fascinating closer made from nomacorc, a biopolymer derived from sugarcane, resulting in the cork being biodegradable.

With no capsule cover, 'Sea Change' minimizes unnecessary packaging and enhances the ease of recycling.
