Pairing these traditional desserts with a flavourful hot cup of Turkish tea or coffee is always a good idea!

- Turkish Coffee** 24  
Derived from a finely ground Arabica bean, Turkish coffee is famous for its strong flavour and captivating aroma. It is traditionally prepared in a small copper pot, or cezve, helping to create a foam that indicates quality.
- Turkish Tea** 12  
Turkish black tea, or Çay, is a powerful brew and hence always served in small, tulip-shaped glasses instead of large cups. Traditionally this is always served black with hot water and some sugar to truly bring out the flavour of the brew.
