Local Tea Selection

My Farm Dubai is a sustainable agriculture venture that promotes the growth and sale of fresh, organic produce in UAE. With a focus on sustainable farming practices, My Farm Dubai aims to provide locally grown, nutritious produce that is free from harmful pesticides and chemicals since 2018 in the UAE.

By growing produce locally, the farm eliminates the need for long-distance transportation, reducing the associated emissions and supporting the local economy.

Peppermint

Organic peppermint is hand-harvested at the peak of freshness, ensuring that every leaf retains its vibrant flavour and potent properties.

The essential oils in peppermint, particularly menthol, are celebrated for their soothing effects on the digestive system and their ability to enhance mental clarity and focus.

Chamomile

Hand-harvested chamomile allows us to select only the finest flowers, which are then naturally dried.

This gentle process preserves the delicate flavours and therapeutic qualities of the chamomile flowers.

Renowned for its calming properties, chamomile is often used to promote relaxation and improve sleep quality. It is rich in antioxidants and may help alleviate digestive issues and reduce inflammation, making it a cherished staple in herbal remedies.
