

The background is a monochromatic red relief sculpture. It depicts a scene with several figures in traditional Chinese attire. On the left, a figure in a long robe and a tall, pointed hat stands. In the center, another figure is partially visible. On the right, a figure in a more ornate, possibly military or official, uniform stands. The background also features architectural elements like buildings with tiled roofs and a large circular emblem at the bottom right. The overall style is reminiscent of traditional Chinese stone relief art.

Legend has it that Zheng He, a famous Chinese navigator and fleet admiral, discovered America in 1418 CE before Columbus. In 1405 the Chinese Muslim eunuch launched the first of seven voyages west from China across the Indian Ocean. During the next 30 years he was in command of the world's largest fleet, funded by the Ming emperor, and travelled through the south and westward maritime routes and established relations with more than thirty countries in Asia, Africa and the Middle East.

Inspired by the notion of travel, we have curated a menu that is principally Cantonese with Szechuan, Singaporean and Malaysian influence.

We embrace authentic flavour, the latest cooking techniques and crucially sustainable sourcing practices to ensure you enjoy the best ingredients available in the market.
